SpecBond, Inc was started in 2012 and is a fabricator of high performance pressure sensitive materials such as adhesive tape and die-cut products for applications for bonding, mounting, assembly, and masking to name a few. SpecBond offers unmatched technical expertise along with its value added services in providing cost effective solutions for the most demanding applications to such industries as medical, construction, electronics, industrial, retail, and automotive as examples.

Dan Murphy is the Founder and President of SpecBond, Inc and has 30 plus years of experience in the industry. SpecBond is a privately held company owned by Dan and two business partners/investors who each have approximately 40 years of experience in the industry allowing for a strong foundation and management team to be in place while having financial stability for supporting future growth.

The management team has the knowledge and experience in product design, coating, and converting of high performance specialty adhesive tapes and adhesive backed materials. One of SpecBond's strongest assets is its ability to source materials and products from its strong network of suppliers across the world to meet customer's requirements.

In March of 2020 SpecBond launched its ability to have stocked readily available PPE [Personal Protection Equipment] supplies for immediate supply to industries across the country. SpecBond with its strong supplier relationships and sourcing ability has allowed for an on-going supply of inventory becoming readily available.

SpecBond has built a reputation for excellence by having exceptional market and application knowledge allowing us to understand customer specifications in order for SpecBond to provide the optimal solution for any given application.

Our technical expertise and value added services along with a stocking program to support your needs makes SpecBond a trusted and dependable resource for your specialty tape and converting needs.
